

End-Of-Life notice for hyperspectral line scan HS05 camera series

Photonfocus manufactures its cameras for very long lifecycles. When electronic components are discontinued, we find alternatives to extend our camera's lifecycle.

Unfortunately, in the case of hyperspectral sensor IMEC CMV2K-LS150 VNIR there is no successor, and it is no longer available.

With this document, we announce the discontinuation of all Photonfocus AG cameras with HS05 option.

Discontinuation takes place immediately.

Please refer to your sales manager for more details and possible alternatives.

Discontinued Camera Models

| EOL Cameras | |
|-------------|-----------------------------|
| Part Number | Camera Model |
| 602011.017 | MV0-D2048x1088-C01-HS05-G2 |
